

Project Design Document

Giaxidis Evangelos
Preliminary PPD

Project Concept

1

Player Control

You control a

character

in this

personal project

game

where

WASD/Space keys

makes the player

move around and makes jumps.

2

Basic Gameplay

During the game,

random enemies

appear

from

every direction

and the goal of the game is to

slash as many as you can in order to survive until time's up.

3

Sound & Effects

There will be sound effects

- regarding slashing an enemy,
- receiving damage,
- making a jump

and particle effects

- fire ignited by our character's pace
- pieces from slashed enemies
- smoke

[optional] There will also be

coins to gather, upgrades and Game Over signs.

4

Gameplay Mechanics

As the game progresses,

both our character and enemies are getting stronger

making it

more competitive and fun

[optional] There will also be

new abilities and powers

5

User Interface

The

Game Over sign

will

appear

whenever

our character dies

At the start of the game, the title

press any key to start

will appear

and the game will end when

our character survives all rounds

6

Other Features

There will be some features including smoke, SFX sounds according to each function and some background music. Also I would like to try make a starting menu.

Project Timeline

Milestone	Description	Due
#1	creating some scene, character and enemy designs	7/10
#2	importing the appropriate package	8/10
#3	creating character and enemy assets and getting along woth the code	9/10
#4	adding mechanics and features	11/10
#5	final test and some maybe some extra features	12/10
